APG 307

Газовая генераторная установка Технические характеристики

APG 307

Engine : PERKINS
 Alternator : MECC ALTE
 Control System : P CM control system

ISO 8528 This generator set has been designed to meet ISO 8528 regulation.

SZUTEST This generator set is manufactured in facilities certified to ISO 9001.

CE This generator set is available with CE certification.

2000/14/EC Enclosed product is tested EU noise legislation 2000/14/EC

Rated Power, 3 Phase, 50 Hz, PF 0,8

Voltage	Continuous Rating (CRP)		Amp
	kVA	kW	
400/230	362	290.00	523.00

Continuous Rating (CRP):

Applicable for supplying power to varying electrical load for unlimited hours. CRP is in accordance with ISO 8528. No overload capability.

- With Radiator
- Low Coolant level alarm
- Oil heater

Optional Equipments

ALTERNATOR

- Anti-Condensation heater
- Over sized alternator
- Main line circuit breaker

CONTROL SYSTEM

- Automatic synchronising and power control system (multi gen-set Parallel)
- Paralel system with mains.
- Remote annunciator panel
- Alarm output relays
- Remote communication with modem
- Earth fault, single set
- Charging ammeter

WISE ACCESSORIES

- Manual oil drain pump
- Electrical oil drain pump
- Enclosure: weater protective or sound attenuated
- Duct adapter (on radiator)
- Inlet and outlet motorised louvers
- Tool kit for maintenance
- 500/2.000/10.000 hours maintenance kit
- Four Pole Contactor

APG 307

Engine : PERKINS
 Alternator : MECC ALTE
 Control System : P CM control system

• Natural Gas Powered Engine Specification

Manufacturer	Perkins	
Model	4006-30TRS1	
Aspiration and Cooling	Turbo Charged and Air to water Charged Cooled	
Maximum Continuous Power	1500 d/dk	322kWm
Total Displacement and Number of Cylinder	L	22,92 - 6
Bore and Stroke	Bore and Stroke	160 x 190
Compression Ratio	12 : 1	
Rated Speed	rpm	1500
Governor	Electronic	
Fuel Consumption	m ³ /h	85,8 ±5% (methane number above 80)
Gas Pressure	mbar	150 - 500
Oil Capacity	L	122,7
Water Capacity	L	36 engine jacket and intercooler
Lube oil Consumption	g / kWh	0,34g/kWh (At 100% Load)
Exhaust Backpressure	mmH2O	400
Exhaust Gas Flow	m ³ /h	66
Exhaust Gas Temperatures	° C	495
NOx Emission	TA-Luft (NOx) 477mg/Nm ³	

• Alternator Specification

Manufacturer	Mecc Alte	
Model	ECO40 - 1S	
Power	kW	320
Design	Brushless, 4-pole	
Cos fi	0.8	
Phase	3	
Voltage	V	400/230
Current	A	577
Insulation Class	H	
Stator	2 / 3 steps	
Excitation System	Brushless excitation system with static exciter	

• Diemensions and Weight

Open Type	Dry Weight	Lenght	Width	Height
	kg.	mm.	mm.	mm.
APG 307	5550	4100	2000	2200
Sound Attenuated Type	Dry Weight	Lenght	Width	Height
	kg.	mm.	mm.	mm.
		6000	2000	2500

Engine : PERKINS
 Alternator : MECC ALTE
 Control System : P CM control system

- COMAP CONTROL MODULE

GeCon controllers provide comprehensive generator protection and control for single or multiple gen-sets based on field proven IntelliGenNT and IntelliSysNT platforms. With GeCon software installed the primary function of the controller is to manage and protect the generator in preference to the engine, which is not a direct concern, and as such, can be used in applications where engine management or protection is not required or in cases where the generator is powered by another source such as a turbine controlled by an external PLC.

Two versions of the GeCon software are available (land-based or marine applications) allowing customers to select a tailored solution for their application. There is also the option to modify certain parameters for critical applications. A built-in synchronizer and digital isochronous load sharer allows for a total integrated solution for gen-sets in standby, island parallel or mains parallel. The GeCon allows parallel operation of up to 32 gen-sets in one group with power management and load sharing. For critical applications, it is possible to arrange the controllers so a 'hot-standby' controller takes over the generator protection and control in case of failure of the main controller. A powerful graphic display with userfriendly controls allows any user, whatever their ability to find the information they need.

APG 307

Engine : PERKINS
Alternator : MECC ALTE
Control System : P CM control system

Benefits

- Excellent configurability enables users to customise to the needs of their application
- Option to read information from ECU
- Power management over various engines from different producers
- Configurable protections
- Optional set the frequency by step 0,1 Hz
- Choice of communication options ensures easy remote supervising and servicing
- Optional redundant 'hot standby' controller guarantees uninterrupted generator control in case of failure of the primary controller
- Built-in PLC functions remove the need for an external PLC controller
- Perfect price/performance ratio
- Gen-set performance log for easy problem tracing
- Blackout start of engines1)
- Running of SPI and SPTM applications without dongle2

Generator Monitoring and Control

- Independent engine controller (e.g. IntelliDrive DCU) is required
- Generator measurement: U, I, Hz, kW, kVAr, kVA, PF, kWh, kVAhr
- Bus/Mains measurement: U, I, Hz, kW, kVAr, kVA, PF
- Auto and Test operational modes
- Automatic Load sharing and Power management in MINT applications3)
- Automatic synchronizing and Voltage control in Auto mode
- Power management: kW, kVA or % load based – in Auto mode
- Baseload, Import/Export, Peak shaving
- All binary/analog inputs are configurable for various protection types

Generator Protections

- 3 phase generator over/under voltage
- 3 phase generator over/under frequency
- Generator overload, Short current and IDMT overcurrent
- Voltage and current unbalance4), Bus voltage unbalance4), Reverse power4), Earth fault current protection4), ROCOF4)
- Additional 160 user configurable generator and bus/mains protections

APG 307

Engine : PERKINS
 Alternator : MECC ALTE
 Control System : P CM control system

Canopy

- 1 Steel structures
- 2 Emergency stop push button
- 3 Control panel is right side of the set.
- 4 Corrosion-resistant locks and hinges
- 5 Sump drains valves
- 6 Exhaust system in the canopy
- 7 Lockable, large doors on each side
- 8 Sound proof foam material
- 9 Base frame -tank
- 10 Lifting Points

Introduction

Sound-attenuated and Weather-protective Enclosures Sound-attenuated and weather protective enclosures for generating sets from Aksa, meet even the sound requirements and provide optimum protection from inclement weather and development by our specialist acoustic engineers. Our modular designed sound insulated canopies (300 - 1100kVA) provide ease of access for servicing and general maintenance and interchangeable components permitting on-site repair. Enclosures are designed to optimize genset cooling performance, providing you with confidence that genset ratings and ambient capability.

Standard Specifications

- Compact footprint, low profile design.
- Enclosure, generator set, exhaust system and fuel tank are pre-assembled, pre-integrated and shipped as one package
- Body made from steel components treated with polyester powder coating
- Fire retardant foam insulation
- Easy access to all service points
- Exhaust system inside canopy
- Large doors on each side
- Control panel viewing window in a lockable access door
- Emergency stop push button mounted on enclosure exterior
- Cooling fan and battery charging alternator fully guarded
- Fuel fill and battery can only be reached via lockable access doors.
- Lifting points on the top of canopy and base frame
- Customer options available to meet your applications needs.
- Aksa makes its generating sets' noise level tests in accordance with directive 2000/14/EC validation of the noise level test has been approved by the notified body Szutest
